

Enthusiasts needed for our section's landmark event.

The Felix Burke Road Trial and social run is a amazing and long-running event - and it is the VMCC's second-biggest. We believe that only the Banbury Run has more entrants!

But the whole event is under threat: it needs new helpers to step in and help run it. Without them - the event cannot run and our section would be greatly diminished.

It's fun - and very rewarding.

Nearly 100 riders and passengers from all over the country converge on Andoversford for what starts with morning tea and a friendly social run by a huge variety of machines, followed the next day by more tea and a sixty-mile navigational trial.

Each year the Trial covers much famliar territory - but each year some of the waypoints need changing - it's no test of skill if you can do it from memory!

Robert Rendell has organised the event almost single-hadedly for many years - but he simlpy cannot continue like that and needs someone to take over.

What is really needed is for several people to share the job: from the necessary paperwork, to riding the route to check it out. There is plenty of information on how it has been done, lots of people ready to marshall, and lots of advice available. We're currently working on a list of what's needed and where to find the things you'd need to know.

So please, get in touch via Mark Bradley and let us tell you more.
